Seat post clamp

The Skin is proof that a XC bike can be an ultimate cross-country performer, but without sacrificing that COMMENCAL feeling that makes you want to just get out and ride! There has been no compromise for this little jewel of technology, with killer looks included! We have used the best fibres, racked up hundreds of hours of tests on numerous prototypes, all so that we could bring our unique geometry into a package with a never before obtained combination of weight, output efficiency and comfort!
